Regarding your inquiry on recent change in the law to allow educational travel for dependents: the State Department authorization, P. L. 93-475, approved 26 October, contains a provision to authorize Government payment for one round trip per year for a student dependent. The authorization is limited to dependents of personnel of State, AID, and USIA. Under prior law only one round trip per four years was authorized.

(See Sec. 13 attached.)
